

Snow Bandana by Lee Alex

Snow Bandana by Lee Alex

From the imagination of Lee Alex - the perfect addition or alternative to any snowstorm routine.

Effect:

"A royal blue bandana with a white snowflake pattern and matching border is shown on both sides. The performer shakes the bandana, and the snowflakes fly off into the air. The bandana is shown blank on both sides, save the white border. The magician takes a handful of snowflake shaped confetti and throws these over the bandana. Alternatively, the bandana can be swept in the fallen confetti snowflakes. Once again the snowflake pattern appears on the bandana, and this can be shown on both sides as it was in the beginning."

- **The Snow Bandana measures approx. 20 inches x 20 inches (50 cm x 50 cm)**
- **Complete with hand-cut snowflake-shaped confetti (enough for many shows)**
- **Easy set up and ready to perform any time during your show.**
- **Online video instructions.**

Let it snow, let it snow, let it snow!
