The Green Neck System 2 by Gabriel Werlen

The Sequel to a Classic of Magic and Mentalism

The first volume of The Green Neck System quickly became a classic of magic and mentalism.

It achieved international success, and its qualities have been praised by the greatest names such as Derren Brown, Michael Murray, Jan Forster, and Gañ«tan Bloom, to name just a few.

Gabriel Werlen is back with a second volume featuring completely new content... and it is even more incredible and diabolical!

More Than Just a Sequel!

You will discover new original and powerful routines using the principle of the Green Neck System... but this new work contains much more than that!

Gabriel Werlen offers you with The Green Neck System 2 all-new applications and principles that push the boundaries of the initial system and open the door to new miracles previously thought impossible.

You will discover that it is now possible to apply the Green Neck System to more than three objects and to implement it without any initial information!

You will also find in this work an unprecedented new principle that Gabriel had kept secret until now: the Equilibrium Force.

With the Participation of Great Minds in Mentalism Several great mentalists who loved The Green Neck System Volume 1 wanted to participate in this new volume.

You will thus discover numerous routines, from the combined reflections of

these creative minds and Gabriel Werlen's. The result of such a collaboration could only be fascinating.

Did You Enjoy The Green Neck System? You Are Going to Love The Green Neck System 2!

In this beautiful 250-page work, Gabriel Werlen will pedagogically present all the innovations he has brought to his incredible system. He will also reveal his new principle, the Equilibrium Force, for the first time.

In The Green Neck System 2, you will find no fewer than 24 stunning and varied routines (divination, lie detection, telepathy, predictions, spectator as a mind reader...) that will allow you to perform miracles, both in close-up and on stage, and even in a completely impromptu manner!

If you enjoyed The Green Neck System, you will love its sequel!

"This book will exceed your expectations on every level!"
