

# The Screwed Coin Box by JT

## Screwed Coin Box

is an innovative yet traditional coin box.

Compared to traditional coin boxes, Screwed Coin Box is the only coin box that the lid can be screwed onto the box. It is a true innovation. The coins can be transferred into the box and outside the box when the lid is screwed on the box. So, the spectators will feel the effects more impossible. We can let the spectators to screw the lid themselves, and magician can open it secretly very fast. Because the lid and the box can be screwed together, we can store the coins very easily, we don't need to add a purse outside the box to prevent them fall apart.

There's also a lifting handle on the box. It is for lifting the box and showing the box conveniently. We can use the lifting handle to do a unique technique.

### Advantages:

- It can be used to perform all the magic routines of Boston Box.
- The design of Screwed Coin Box is unique.
- The box can be examined completely.
