

SB Watch 2 (2024) Noir Silver One

SB Watch 2 (2024)

- **A prediction watch and a peek device in one.**
- **Innocent look has a sleek design and natural aesthetics.**
- **Comes with the TimeSmith app and many routines.**

A smartwatch with a sleek design and natural aesthetics. Our ultimate prediction watch now doubles as a discreet peeking device. Coming with a tiny display, and a gentle vibration motor.

It has a button that looks like a crown, turn-able with no effect. You can imitate pulling it out and ask the spectator to "set a time" while you force a preset time.

Optionally, it has two extra buttons you can assign actions to in the compatible apps.

We are selling these 2024 Noir models:

- **Noir Black One: shiny black body, black face with numbers (1-12), the logo, and a crown-button.**
- **Noir Black Three: shiny black body, black face with numbers (1-12), the logo, a crown-button and two buttons.**
- **Noir Silver One: shiny silver body, black face with numbers (1-12), the logo, and a crown-button.**
- **Noir Silver Three: shiny silver body, black face with numbers (1-12), the logo, a crown-button and two buttons.**

The SB Watch uses no confederate or pre-show. You can perform it anywhere, anytime without any issue.

What's New With the 2024 Models?

SB Watch 2 introduces many improvements compared to previous models:

- **A tiny 72x40-pixel sized display (to peek information).**

- A gentle vibration motor (to receive notifications).
- Rechargeable battery (no more battery replacements).
- Optionally two more buttons (use it as a remote).
