

## The Slingshot by Joel Anthony

*"When I saw Slingshot, I immediately knew it was special and begged Joel to share this with the rest of magic world."*

**- Chris James**

*"I've never seen a gimmick like this that can be locked open without it being in your hands. Joel has nailed it with Slingshot. It's also super fun to play with!"*

**- Ben Williams**

*"Super-visual! The vanishes look like real magic! 2 gimmicks AND a repair kit? This is a level of customer care that you rarely find in the magic industry. Bravo!"*

**- Ben Salinas**

### **What is Slingshot?**

**Slingshot** is an incredible utility device that can be used with almost any deck of cards.

*This amazing tool can do:*

- Visual appearances
- Incredible vanishes
- Transpositions
- Color changes & more!

*You will be taught 3 awesome routines including a monte style routine, multiphase Chicago Opener style effect and a visual EDC card to wallet in the spectators' hands. Plus, you will be taught loads of moves, sleights and additional ideas using this gimmick.*

### **What makes it different?**

**Slingshot** is a unique and original gimmick because you can 'lock' the gimmick in the open position! That right, you can place two cards down on the table and whenever you want you can pick them up and visually vanish one.

*Imagine laying 2 cards on a spectators hands and then visually making one completely disappear. That is possible with **Slingshot**.*

### **What do you get?**

*With Slingshot you get:*

- *1 red bicycle gimmick*
- *1 blue bicycle gimmick*
- *1 Maintenance kit*
- *1 Tutorial including maintenance of the gimmick and how to make your own from any deck.*

*This is visual, this is fooling, this is **Slingshot**.*

*Special thanks to Mark Mason and Eric Jones for their blessing with this release and Chris James for the encouragement and belief in this product.*
