

Perfect Wave by Emanuel Sutter

Perfect B' Wave

is my rendition of the well-known Max Maven trick called B'wave. This trick has been part of my repertoire for more than 10 years, and today, I decided to share it with the world so that more magicians can use this idea.

Perfect B' wave has all the elements in full view of the audience, is easy to do, and requires no forcing and instant reset.

- **No forcing.**
- **No additional elements required.**
- **No changes.**
- **Everything in full view of the spectators.**
- **Strong magic with no sleight required.**
