Make sure you grab at least one! Don't miss this opportunity, you won't

regret it.

The Design

Odyssey's Elite V2 back design shows how minimalism and futurism can be perfectly connected. This connection is the cause of a beautiful back design and the vivid red color chosen for the new ELITE edition.

Moreover, we incorporated stylish and aesthetics borders that match perfectly with the thematic of the whole deck.

As every edition, we maintained our iconic diagonal stripe! However, this year comes more futuristic but keeping the elegance that our decks must have.

The Box

This is one of the best parts of this deck. ODYSSEY ELITE comes with a unique and never seen before tuck case, built exclusively for it. ELITE V2 improved it.

In this V2, we have enhanced the design and structure of the box, adding a sophisticated touch.

Additionally, we've incorporated magnets to ensure that the opening and closing mechanism provides a remarkably satisfying experience.

Diagonal opener and impressive design. Nothing more to say.

Also, this tuck case will be crafted with a new cardboard, thicker and more resilient to keep the box in perfect conditions as long as possible.

The Suits

Following our standards...Here are the suits.

The Figures

Inspired by Sci-Fi culture, the royalty comes armored and mechanized.

With these designs we tried to transmit what the future will bring to us. Perfectly balanced and always, luxurious.

The Jokers

Equals simple but describing our philosophy: "*Feel the Universe in your hands*". We tried to innovate by creating an even more modern joker design.

Crafting

Odyssey Elite will be crafted by one of the best card producers worldwide: TCC Playing Card.

About the paper stock, we will use the exclusive ELITE paper stock and finish.

This paper stock and finish have been designed specifically for this deck. ELITE deserves the best, and that is what we want to achieve for it.
