

## **Water Transfiguration by Arsene Hsiao**

**Alan Wong and 808 Magic Present Water Transfiguration by Arsene Hsiao**

**From the minds of Arsene Hsiao, " I really like Lennart Green's physical performance movements and logic, and he doesn't do "techniques that look difficult". Just use actions that ordinary people can do to make magic happen. Based on this concept, I designed a "mechanism" for water transformation. Although I know there are many magic tricks with drinks in this world, but I can guarantee that my water transformation mechanism is exquisite."**

**In this work he will teach you how to make:**

- **"Water turns into soda"**
- **"Water becomes two drinks"**
- **"Let the audience taste different drinks"**

**After you set it up, all you have to do is:**

- **Tell the audience it's water.**
- **Open the bottle cap to show its water.**
- **Close the cap.**
- **Shake the water bottle.**
- **Open the bottle cap and let the carbon dioxide explode to release the soda.**
- **Pour out drinks for the audience to drink.**

**Turn water into soda.**

**Can turn the same bottle of water into different drinks TWICE.**

**The drinks produced by magic can be given to the audience TO DRINK. Mechanism setting is easy! The operation of the mechanism is simple and natural. Replaceable gimmick for different water bottles.**

**Water Transfiguration is suitable for parlor and walk around street magic.**

**NEW CONCEPT AND DRINKABLE!!!**

**REFILLS ARE ALSO AVAILABLE SOLD SEPARATELY**
