

Larry Becker's Psycho II 2.0 by Steve Cook and Alan Wong

Psycho II 2.0 by Steve Cook & Alan Wong

At long last!!! It's finally back! One of the greatest ESP effects ever created! Steve Cook's take on Larry Becker's original Psycho II effect.

A true classic of mentalism with a deviously, sublime principle! Includes 15 additions to the original effect by Steve Cook!

Larry Becker's original diabolical principle retained. Permission to release this version kindly granted by Larry Becker & April Becker. A percentage of the profits from the sales of this effect will be donated to Alzheimer's Research.

Five ESP cards are shown: circle, cross, wavy lines, square & star. Three graduated envelopes are also displayed. Whilst the performer turns away, a participant freely selects an ESP card from among five different symbols, and the chosen symbol is reversed in the packet, which is then isolated in an opaque envelope. In true 'test conditions' style, this envelope is then examined by the participant, who confirms that it is completely opaque. The envelope is then inserted into a second envelope, then both these envelopes are isolated inside a third envelope, then placed inside a holder.

Under these impossible conditions, the performer is able to reveal the reversed symbol. The method is: So clean! So clever! So subtle. So devilish! So classic! So impossible!

Now get this:

There are no gimmicks, No forces. No sleight of hand. Totally unprepared props. Easy to do. Everything is examined. Can be instantly repeated with a different outcome. Nothing is added or taken away. Instant reset. No switches. No stooges. All self-contained.

You are supplied with:

- **A set of Composite, (graduated) plastic based, envelopes for longevity.**
- **Two spare sets of envelopes. Blank backed, plastic ESP cards with colored symbols.**
- **A large, laminated Duke University card for authenticity, with a dry wipe back onto which the chosen symbol is drawn.**
- **Plastic holder to keep everything self-contained.**
- **Fully detailed, scripted instructions in A5 booklet form.**
- **Steve Cook's original presentation included.**
- **All custom-made items included.**
- **Produced by Alan Wong**
