

## V.A.P. by Moon

This is a great card. It is very easy, visual, and wonderful.

Welcome to the **V.A.P**

The gimmick captured three magic phenomena in one card.

From disappearing, appearing, and passing! Three-dimensional dice pop out from the back of an empty card with some signals. spectator will be amazed, and they can even hold the dice in their hands.

And anything, not just the dice, can appear, disappear, and pass through.
