

Bicycle - Supreme line - Svengali Deck - Blue Back

This is a Svengali deck for true professionals! In fact, with Bicycle Supreme Line the cards will look more natural compared to traditional Svengali Decks. Moreover, thanks to the fact that the Supreme Line cards are slightly thinner than traditional Bicycles, it was possible to add further 4 cards thus improving the natural appearance of the deck.

The deck is "cut" directly by the U.S PLAYING CARD COMPANY, the manufacturer of the Bicycle cards, so the corners are rounded perfectly.

Here is one of the many possible routines with this fantastic deck: the magician shows a deck of cards, he invites a spectator to choose a card and put it back into the deck. After shuffling it he finds it in any point of the deck indicated by the spectator. Other amazing games can be played and with a breathtaking ending the cards can all become the same as the chosen one!

- The deck comes with instructions for 10 tricks.
