

Ultimate Clue 2 by Nikolas Mavresis

This is the updated version of the original **Ultimate Clue** routine, featuring all-new designs, new extra props and additional phases. It's a murder mystery effect where 14 strangers gather at a party, only to discover a murder has been committed.

The spectator selects a killer, and without touching the cards, you reveal who it is. In the second phase, the spectator identifies a new killer without even knowing how they did it. Finally, in the third phase, you reveal that you knew the outcome from the start with a prediction that's been on the table all along.

Complete with 14 suspect cards, a gimmicked wallet, prediction cards, an envelope, and a sticker.

Can you solve the mystery before it's too late?
