

The Bottle by Adrián Vega

“A perfect routine” – PENN JILLETTE

“Adrian’s card in the bottle totally fooled me and when he showed me the method, it fooled me even more. I can’t wait to finally add this super effect to my act” – DAVID STONE

“The Bottle” is the perfect ending to any signed card routine. It is very well designed and quick to do. I am sure you will want to add it to your repertoire. It is definitely a memorable effect. Pure magic!! – HENRY EVANS

If these great magicians like Penn Jillete, David Stone or Henry Evans say that about Adrian Vega's new effect, we honestly don't have much more to say.

One of Adrian Vega's most personal effects is here to surprise magicians and laymen around the world. A signed letter appears in an impossible way in a sealed bottle filled with pills, candy, coffee beans, etc.

Adrian Vega has been performing this effect for over 10 years, keeping it a total secret from himself and a few close friends... until now!

After performing on the best stages in the world, such as the prestigious Magic Castle in Hollywood, FISM, FFFF or Fool Us, now is your time to do the best ending to a signed card routine, never seen before.

And the best part is that it's a miracle that's very easy to make!

Throughout the tutorial, Adrian Vega will share his experience over the years, including the history of the effect, different routines, all the psychology behind it (the most important thing in magic in general) and many more tips to create a miracle with your own hands.

REMEMBER:

Includes everything ready to use, simply remove the signed card from the bottle and use the same bottle every time, with only one second to reset it.

You will receive the perfect pills to present it, but you can fill the jar with whatever you want, coffee beans, candy, caramels, popcorn, etc.

You can also give the bottle as a souvenir or destroy it during your professional

performances, everything is explained here.
One of the strongest and most impossible effects and also easy to perform.
