

Nebula Infinitum Playing Cards

The first deck of Nebula Playing Cards launched in March of 2021. The real star of that project was that it funded in just under 2 minutes.

The inspiration that led to the design for the first edition was based upon a quote from T.S. Eliot: "Every moment is a fresh beginning," reminding you of the rebirth of galaxies and the possibility of being able to start over.

That deck went on to win Portfolio52's "Best Cardistry Deck of 2021!"

Manufactured by the United States Playing Card Company, Nebula Infinitum is printed on their Premium Thin Crushed Stock with Air Cushion Finish. This paper stock and finish will make sure the decks are silky, smooth, durable and hold up great over time. Also they of course feel fantastic!
