

## Bubble Ring by Adrian Vega

“With the right tools, you can create a lasting magical moment and an impossible object, where childhood memory meets intellectual challenge. This trick inspires my head and my heart” – Garrett Thomas

Adrián Vega brings us a surprising, poetic, original and very visual piece using one of the most magical toys, a “pompero”.

Adrian imagined this magic trick when he was almost a child, it was simply an impossible idea in his mind, he only imagined the effect, the method seemed impossible to find.

After years of trying, restarting from scratch and trying again, he finally developed a very practical and simple method to achieve the dream effect.

Imagine borrowing a spectator's ring and making it travel inside a bubble (sounds impossible already!), until the magician gently pops the bubble, making the ring appear again, but... LINKED to the bubble wand!

We don't want to say more, we just want to invite you to watch the trailer and see how visual it is. Words alone don't do it justice. We'll just say that it's incredibly easy to do, and you'll receive everything you need to do it, including the special handkerchief, the ready-to-use "pompon maker" and a complete tutorial with different ideas and handlings for parlor or close-up magic.

Forget about impossible maneuvers, impractical tricks or expensive refills. Just practice it and be a different magician creating new miracles like this one.

Remember:

- Everything is ready to use right out of the box.
- Very easy to do and different handlings are included for any situation.
- You can use the same “bubble wand” every time if you want.
- Play with it, have fun and create a visual miracle and improve your reputation with “Bubble Ring” by Adrian Vega.
