

## **Mental Frame by Vernet**

### **Effect:**

The magician shows a frame with 4 different colored socks hanging on it with clothespins. He shows the pairs of those 4 socks and places them in a paper bag. A spectator chooses one sock at random without the magician seeing it.

Now the magician asks everyone to focus on the socks that are not the chosen color.

And all the socks that are not the one the spectator chose, fly out of the frame, one by one! Without the magician touching them. And this is just the beginning.

**INCLUDES 3 DIFFERENT ROUTINES!** And everything you need to perform this miracle.

- This effect is great because is entirely mechanical, very easy to perform, allowing us to focus purely on the presentation.
- Is perfect for any kind of audiences, from adults to children, and for stage and a very small group of people.
- It's ultra-visual, and highly memorable.
- It takes up very little space and resets instantly.
- Additionally, it allows you to perform several different routines.

### **You receive:**

- Mental Frame
- A carrying bag
- 4 pairs of colored socks, specially designed to fly better.
- 4 clothespins.
- A specially prepared bag for a peek.
- 4 postcards
- And video download with live performance and explanation.
