From the warped mind of Greg Rostami (Stuck! Cosmos Duo, iForce, Inject) comes the ultimate card at number.

A prediction card is placed next to a shuffled deck of cards (use ANY deck, the cards are NEVER touched by the magician).

They multiply a freely chosen number by any four-digit number (the magician NEVER touches their phone/calculator).

They count cards from either the top or bottom of the deck.

When they get to the last card, it MATCHES the prediction card!

Supercan has fooled some of the top minds in magic ... It's simple, direct, and impossible to backtrack.

The spectator freely decides EVERYTHING, but in the end your prediction is ALWAYS EXACTLY at their number!

The instruction video teaches many variations to suit your style for closeup and stage performances.

Even though you use any deck, the package includes THREE diabolical gimmicks (made by the U.S. Playing Card Company) that you must use for the various presentations.

- Super EASY (perform after 5 minutes).
- Use ANY deck (the cards can be fully examined).
- Includes custom gimmicks.
- You NEVER touch the cards.
- You NEVER touch their phone.
- No dupes, no sleights, no memorization.
- No apps, no internet.

We promise, you'll perform Supercan for the rest of your life, every chance you get ...

1 to 3 SHORT sentences highlighting key sales points of your product:
