

Thought Extraction by Joel Anthony

"This is a very useful tool that will allow you to perform countless routines! Well done, Joel!"

- Luca Volpe

Imagine being able to see everything that the participant has drawn or written inside an envelope.

- *No windows*
- *No taking the billet out*
- *No strings, magnets or threads*
- *Nothing to easily break*
- *Incredibly clever*

What is Thought Extraction?

Thought Extraction

is an envelope set that allows you to peek the information written in one of the envelopes, allowing you to do routines that include:

- *Being one ahead*
- *Drawing duplications*
- *Double writing effects*
- *Much, much more.*

You will be taught routines and ideas by the likes Jason Varga, Jake Keane and Craig Petty.

What makes it different?

You can lay all 5 envelopes down on the table with the 'dirty' side of the gimmicked envelope facing up and it will look identical to the regular envelopes.

You will be taught how to make additional gimmicks and custom regular envelopes so you can hand the regular envelopes to the spectators to keep at the

end of your routine.

What do you get?

*With **Thought Extraction** you get:*

- *1 Cleverly gimmicked envelope.*
- *4 regular custom envelopes.*
- *1 Color printed booklet teaching you a basic routine + more ideas!*
- *1 Tutorial teaching you how to make additional gimmicks.*
- *Additional videos with incredible contributions from other performers.*
