

House by the Window (Collectors Edition) Tarot Deck

A witch roams through the desolate castle by the window, with swarms of bats swirling around, as if awaiting the arrival of a survivor. **House by the Window** presents a magical story set in an ancient castle from the witch's perspective. The window both "confines" the witch and holds a fatal allure. The empty house by the window, the enigmatic witch, the intricate designs of the ancient setting, and the hazy, rough pencil sketch textures-all together, **House by the Window** elevates vintage aesthetics to the highest level.

- UV-coated tuck box
- Late Moon Silver gilded edges
