

Acrylic Magic Wand (Sanded with Clear Tips)

A Modern Look with a Touch of Classic Elegance

Captivate your audience with a wand that stands out from the crowd. Crafted from crystal-clear acrylic, this **magic wand** adds a sleek, modern touch to any magician's toolkit. Transparent yet commanding, it offers a distinct look that combines style with functionality.

This wand isn't just for show - it's designed for performance. At 36 cm (14 in.) in length and 15 mm (0.6 in.) in diameter, it's both longer and thicker than most, providing a satisfying feel in the hand.

With a weight of 77 grams (2.7 oz), distributed evenly across the full length it has an ideal heft and balance, making it perfect for stick tricks and classic wand moves. Whether you're spinning, twirling, or using it as a theatrical pointer, it will emphasize every movement and make it look polished and intentional.

Available in three striking designs:

- **All Clear:** Sleek and seamless, this design emphasizes the clarity of the acrylic, creating a mesmerizing illusion that seems to catch and refract light from every angle.
- **Clear with Sanded Ends:** For a bit of contrast, this version features sanded ends, adding a frosted look at the tips while keeping the body clear. The effect is both modern and mystical.
- **Sanded with Clear Ends:** A reverse take on the frosted design, this wand has a sanded body with clear ends, giving it an elegant, understated look that still pops on stage.

Each design offers a unique aesthetic, but all are crafted to the same high standard, blending beauty with practicality. Modern, elegant, and effortlessly cool, this **acrylic wand** is the perfect addition to any magician's performance, providing a touch of sophistication and mystery.
