

Vortex by Mickael Chatelain

Watch the video demonstration again and again! It is 100% honest, you can just agree it's impossible right?

Often, we said that two brains are better than one! My friend Andre Previato and I are happy to offer a completely IMPOSSIBLE effect! An INEXPLICABLE effect!

VORTEX created by Mickael Chatelain & Andre Previato

How is this possible? This is, what your spectators will tell you after witnessing this incredible demonstration.

Use a regular card case and a box of Tic-Tac candy!

In the Tic-Tac box, there is one and only one candy, open the box and give it to your spectator. Also show an empty card case, nothing inside!

Give your spectator a marker and ask them to make a small mark, drawing or something else on the Tic-Tac. This one therefore becomes UNIQUE!

The Tic-Tac is placed in the card case, show it off to those around you! Your spectators look into the card case and see the Tic-Tac at the bottom of it! The Tic-Tac box is now closed! Also place it in the card case.

We insist... everything happens slowly, without the slightest suspicious gesture, without the slightest manipulation!

The impossible, will then happen in a few seconds... in front of your spectators! Please note, the card case is also closed.

Concentrate for a few seconds and open it again... The Tic-Tac box is still there, tightly closed as at the beginning but impossible, the Tic-Tac is inside again! How is this possible? Magic? Witchcraft? **Vortex?**

Show the box, with the Tic-Tac inside, there is no doubt, it is indeed that of your spectator, it is indeed signed by them!

I know you don't believe me, but everything is EXAMINABLE! Nothing to see!
