

The FLY LITE by Marcos Waldemar & Invisible Compass

A card chosen by the spectator is found by a fly right before your eyes.

This is the cheapest modern remake of a 10-year-old bestseller. The must-have product from **Invisible Compass**. Very easy to do and always ready for your walk around performances.

An effect that will make everyone remember you, where the chosen card has never been so sure to be found. **The Fly Lite** will ensure everyone remembers your performance and thinks of you as the magician who managed to train, hypnotize, capture... (whichever presentation you want to give to the effect) a real fly.

Inside the box you will find:
