

Henry Harrius Presents ESPOJI By Alex Ng

ESPOJI

is a cleverly crafted tool for mind-blowing mentalism miracles, at the same time deviously disguised as a regular deck of Emoji game cards.

Rather than kicking off your performance with a traditional magic trick, you begin with a friendly card game (yes, it is designed as a **REAL CARD GAME!**), setting a relaxed and fun atmosphere for everyone involved. As your friends loosen up and let their guard down, you seamlessly transition from the game into mind-reading and ESP card effects that will leave them **SPEECHLESS**. This shift from casual gameplay to inexplicable feats of mentalism is what makes ESPOJI so diabolically effective.

This system harnesses the power of universally known emojis, fusing **STACK** methods and easy-to-read **MARKED SYSTEM** to evoke emotional sorcery. Unlike ordinary playing cards that lack a personal connection, ESPOJI allows you to tap into your audience's emotions, creating a deeper engagement that enhances the overall experience. Featuring 4 exceptional mind-reading routines, perfect as your go-to EDC for mind magic, ready to perform at any moment, anywhere:

First Love: The audience rediscovers the feeling of their first love.
Emotional Touch: A specially designed routine that combines **DUAL REALITY** for true mind reading.
Positive/Negative: An emoji version of OOTW routine, with a visual twist at the end that would make you smile.
Empathy: A fun take of the classic ESP cards effect - "Jazz Mentalism"
