

WOW Z by Katsuya Masuda

WOW

has evolved and can now be performed with bills! The latest version of Katsuya Masuda's hit item, WOW! It is a wallet-shaped WOW.

A dollar bill changes into bills of various countries. Coins or cards can be used in place of the changed bills. Example of use Put a \$1 bill in the wallet, showing it well. Through the window, you see the \$1 bill is firmly in your wallet. The next time you cast the spell, the \$1 bill will change into a Japanese bill. You can move on to the next magic trick using the changed bill.
