

Chop Cup - Wood

A Classic of close-up magic, with a elegant polished wooden cup. The effect consists of a ball that appears and disappears continuously from the chop cup. The ball ends up in your pocket and then mysteriously returns under the chop cup. At the end, the ball turns into a larger ball, a lemon or different load.

- A trick that never ceases to amaze.
- Together with the chop cup we also supply: two balls, a final load, and a cloth carrying bag.
- The cup, made with extreme care, measures 6 cm (internal diameter 2.36") and 7.5 cm (height 2.95").
