

Good Pals Halloween Tales Vol. 2 (Special Edition) - Pokerdeck

Special Edition Deck:

Good Pals Halloween Tales

**is a fully custom deck of cards featuring Halloween art on every card!
We've added more color to our 2nd volume of Halloween Tales, starting off
with Orange, a classic Halloween color.**

The Special Edition (Black) is an edition of 500 with a numbered seal.

**We've experimented here! The first time we have gone for an all-black deck
of cards. Using this kind of technique allows for brilliant contrast when
using the right colors, and along with our designer, we believe we've nailed
this one and anticipate this to be our best-seller.**

**From our standpoint, the dark background is really eye-catching, and the
touches of orange seem to compliment this design really well.**

**We believe the dark backgrounds really bring the court cards to life. We
have also been able to extend the background artwork in this deck
significantly to the V1 Halloween Tales , which had a narrower border.**

**The number cards have a fresh look, or at least the spades and clubs do.
We have inverted the colors to a bone white and the contrast on the black
cards looks really nice!**

**All of the aces in Halloween Tales builds upon the artwork from the number
cards, except making them bigger, better and bolder.**
