

The 6 Cards by Mayette Magie Moderne

The 6 Cards

The great classic of parlor magic, with jumbo cards. All the great magicians have had this famous trick on their program at one time or another.

The magician shows six jumbo cards. He counts them one by one: 1, 2, 3, 4, 5 & 6. There are six.

He throws down three cards one at a time: 1, 2 & 3. How many are left? Is it three? NO!

The cards are counted again: 1, 2, 3, 4, 5 & 6... There are SIX again!

The trick is repeated several times in a row... And each time, there are always six cards!

Strong points:

- **A great classic of parlor and stage magic.**
- **An absolutely intriguing trick.**
- **Extremely easy to perform.**
- **The repetition of the effect makes the trick more and more incomprehensible!**
- **Guaranteed success!**

Provided:

**Special jumbo cards.
