

Secret Tale Ragnar MINI White Bee - Pokerdeck

This **Secret Tale series** consists of fully custom LIMITED deluxe playing cards, decorated with uniquely crafted artwork, each depicting untold stories of famous legends never before revealed...

Following the introduction of King Arthur in the initial release and Robin Hood in the second campaign, we are excited to unveil our third edition **Ragnar Lodbrok**.

During our visit to Skjern, Denmark, the ancestral home of numerous Vikings, we encountered a remarkable revelation that sparked our interest and led to the unveiling of a new fascinating **Secret Tale**. Unearthing an ancient manuscript attributed to Princess Auslaug, the spouse of Ragnar Lodbrok, provided profound **new insights into Ragnar Lodbrok's life**. This newfound information not only verified his Danish Viking roots but also offered a captivating glimpse into his extraordinary journey from a modest farmer to a formidable Viking king. **The story is exceptional and laden with darkness, providing a clear understanding of why it remained concealed for an extended period...**

Following the series' aesthetic, this design seamlessly blends traditional folk art with a vintage color palette. Drawing inspiration from the **Ragnar Lodbrok** narrative, it incorporates numerous motifs to craft a harmonious back design that complements the overall look and ambiance of the **Secret Tale series**.

The new fully custom-designed courts showcase the key characters from our **Secret Tale** centered around **Ragnar Lodbrok**. While some are already legendary figures, others have remained concealed for centuries and will make their debut in this deck. The artwork presented in the **Secret Tales series** is exclusive and has never been featured on any other deck of cards, adding a unique and unprecedented element to the collection.
