

FMPX (Fusion Mosaic Phenomenon) Christmas Edition - Pokerdeck

Got gigs this Christmas? Or just want to leave your family and friends speechless around the dinner table?

Stop searching for the ultimate seasonal trick-you've found it. Introducing the mind-blowing **Fusion Mosaic Phenomenon: Christmas Edition**.

What's the Trick?

You start with a deck of festive photo cards. Your audience picks one at random while you attempt to read their Christmas vibes and pinpoint their chosen image-but you deliberately miss. Just when they think you're stumped, you deliver an unforgettable twist: the cards you've removed align perfectly to form an incredible mosaic of their chosen image. It's jaw-dropping, visual magic at its best.

Why is FMPX the Perfect Christmas Trick?

- **It's completely self-working:** No complex sleights, no stress. A simple marking system and clever optical illusion handle all the hard work for you.
- **Perform anywhere, for anyone:** The method is language-independent-no scripts, no language barriers-so you can spread Christmas magic anywhere in the world.
- **Five incredible reveals:** Perform it multiple times for the same audience with different outcomes each time.
- **Quick to learn:** Creator Phill Smith breaks it all down in a 20-minute instructional video. You'll be performing like a pro in no time.

This is more than a trick-it's a Christmas miracle. Elevate your gigs, wow your loved ones, and create unforgettable moments with **Fusion Mosaic Phenomenon: Christmas Edition by Phill Smith Creative**
