

Tear No Tear Pad - Bühnentrick

Magician reaches into his pocket and takes out a small note pad and tears a page from it. He talks about how powerful our thoughts (or will power) are and how it effects our day to day activities. He says , let me explain and then writes a sentence "I CAN'T DO IT" on that note (Paper sheet) and hands it over to the spectator to read and adopt this "negative thought" in their mind, and try to tear that piece of paper. The spectator finds themselves unable to do so. The magician takes that note from them and on the other side of the note he again writes "I CAN DO IT" . He gives it back again to the spectator to read and to adopt this new "positive" thought in their mind and try to tear this note again. Surprisingly this time the spectator can easily tear the note. If you wish you can continue the routine a little more. Once the spectator has succeeded in tearing the note, you can ask him to try once more. He will be unable to do so. The magician says "Confidence is good but Overconfidence is bad". For all such feats, you have to be a magician and then proceed to tear one of the torn pieces of that same paper.

A very clever prop that you can carry around in your pocket that will allow you to perform many Mind Blowing feats of mentalism. You can use it for close-up or even on stage.

- The sheets of paper measure 9 x 6.2 cm.
- The affects you can perform with this once you know the secret will be limited only by your imagination.
- The note pad contains 30 pages which will allow you to perform a mental effect on 30 different occasions.
