

Double Mental (Blue) by Dominique Duvivier

The spectator and the magician each THINK of a card.

The deck is taken out of its case and, unbelievably, BOTH CARDS ARE FOUND NEXT TO EACH OTHER!

So what's most weird: that the magician's card is next to the spectators, or the other way round?

In fact, the weirdest thing is that when the spectator's thought card is turned over, it's the only card in the deck with a different-colored back!

A disturbing and magnificent effect!
