

Time to Travel by Juan Pablo

Introducing **Time to Travel** by Juan Pablo, a unique travel experience where the spectator secretly and freely selects a country, an airline, and a seat number.

Before the spectator reveals their choices, the magician shows a prediction in an envelope and hands it to the spectator. In an astonishing twist, the spectator announces, for the first time, the three choices they have made. When they open the envelope in their hands, they discover it contains exactly what they had chosen.
