

## **Easy Palm: Magic Grip Serum (100 ML Refill)**

### **Easy Palm Refill**

**Save the environment and your wallet.**

**If you use Easy Palm and love how it transforms your dry hands and gives you the perfect grip every time, this refill is for you!**

**Easy Palm has become a trusted companion for magicians worldwide, and we're deeply grateful for the fantastic support and feedback from our users. To show our appreciation, we've created this 100 ml refill for our heavy consumers (and everyone else who wants to save a buck or two). By choosing the refill, you save 25% and reduce waste by reusing your original bottle.**

**Refilling your Easy Palm bottle is quick and easy - it takes less than two minutes to top up your trusted 30 ml bottle, and you're ready to go.**

**Please note that the refill bottle is less durable than the 30 ml bottles. While the pointed spout makes it easy to refill your bottle, it also makes it difficult to dispense the proper dosage of serum, which makes the 30 ml bottle essential for convenient use.**
