

## **Insight by Chen Yang & TCC Magic**

**A Practical Tool That Combines Ancient Coin and Book Test.**

**From the creative mind of Chen Yang, the magician behind The Mobius Rising Card, Card On Ceiling Wax, and the 2023 bestseller Grandma's Miracle introduces a new tool: Insight.**

**Insight combines the mystique of ancient coins with the power of the book test. The effect is straightforward yet easy to do:**

**Using an ancient Chinese coin as a guide, you slide it across the pages of a book and have the spectator stop it at any point. The coin circles a specific word, and with a subtle display of mind-reading, you reveal the exact word they had in mind.**

**The beauty of Insight lies in its versatility-you can use it with any book, with no restrictions. Set your prediction in advance with any book and any word. Whether for mentalism acts, casual readings, or routines involving books, Insight empowers you to force the exact word with precision.**

**This ancient coin replica is crafted from zinc alloy using die-casting and finished with antique bronze plating. The result is a classic charm that resists fading and embodies the deep historical essence of bronze.**

**The package includes a roll of double-sided tape, allowing you to easily remove and replace the sticker contents to suit your performance needs.**
