

Infinite Zeros by Caj Magic

Specially printed utility cards that are to be used with a regular deck.

A card is selected by a person who, without looking at it, concentrates. The magician states he is getting nothing, "ZERO" from the spectator. The card is turned over and the card is indeed a "0". You may see yourself out.

Easy to do! And a great laugh anytime! Self-working!

You get:

5 great specially printed Bicycle cards, printed by USPS. The Five of Diamonds has printed on the back "All Magicians are busy. Please have a seat Until your number is called: Your number is 5". The Zero's have red Bicycle backs.

A must have!

Yes! You are looking at that picture correctly! Look at it again. The cards are worth ten times what they are selling for.
