Emojinary by Neta Bresler

An exciting new world of magic and mentalism using something everyone recognizes: Emojis. From predicting the future to reading minds, and even mind control, **Emojinary** by Neta Bresler and Vanishing Inc. is an easy-to-use tool that you can use anywhere from close-up to stage.

Emojinary is more than a singular trick. It's a practical and customizable system that uses a custom-designed app and set of marked cards to perform a variety of jaw-dropping miracles. You can use them separately or combine them together for one-of-a-kind routines.

Here's just one example of what you can do with **Emojinary**:

You borrow someone's phone, open the Emoji keyboard and then turn the phone face-down before inviting them to blindly tap some Emojis. They then turn the phone toward themselves and look at the Emojis they hit. Impossibly, you can read their mind and tell them exactly which ones they chose. But that's not all. As an extra kicker, you reveal that their choices were not as random as they seemed. They will freak out when they discover the Emojis spell their name.

This is just one of the **10+ professional routines** taught in the **incredible 2.5 hour download**. You'll learn effects using your phone, a borrowed phone (NFC tags included), or even no phone at all. These easy-to-do effects aren't limited to close-up performances either because you'll also receive the fonts/files needed to create larger predictions for parlor or stage shows.

Emojinary really has limitless possibilities and the private Facebook group you'll gain access to is where many of the best new ones will live.

App Details
The "Emojinary" app was developed by acclaimed magic app creator Joshua Riley and works on both iOS and Android. It's compatible with iMessage, WhatsApp, the Notes app and email. You can even use it with Google searches. The reveals and predictions can be done impromptu or created/sent in advance.

About the Cards
The Emojinary deck is printed on professional grade stock and handles like a dream. It looks just like an authentic deck of children's game cards. Which is

exactly why your audience will never suspect that it also contains a sneaky marking system. Beyond using it in conjunction with the app to create one-of-a-kind predictions and matching effects, you can also use the **Emojinary** deck to perform unique takes on all your favorite card magic classics.

What You Receive:

- Emojinary app
- Custom marked Emoji deck
- 2.5 hour tutorial
- Fonts/files for larger reveals
