

Double Cross Holster

The Double Cross Holster

is the ideal way to carry Double Cross. The holster is a 3D printed sleek black tube that hides unseen under your coat, held in place with powerful neodymium magnets.

The Double Cross Holster allows you to effortlessly produce your Double Cross at a moment's notice. And as soon as you finish the routine, you can reholster the prop with zero fumbling - reset to go again. Also, with the holster, your Double Cross won't move or turn, ensuring that it doesn't interfere with other magic props you have in your pocket.

- Conveniently stores your DC anywhere inside your coat.
- Secures your DC - preventing it from turning or moving - which frees up your pocket for other effects.
- Allows smooth removal and replacement of your DC - without looking!
- Prevents the putty from staining your clothes.
- Keeps pocket lint off the putty so it's always sticky and ready to go.
- Powerful magnets keep the holster secure - it stays put wherever it's attached.

The holster works for all Sharpies, so you can use it with any other normal or gimmicked Sharpie - like Magic Smith's Super Sharpie.

Available in 3 styles:

- The Holster by itself - includes powerful mounting magnets and removable rubber stopper.
- The Holster with a backup Double Cross X-Stamper inside.
- The Holster with a backup Super Sharpie Secret Writer inside.

Double Cross and Super Sharpie sold separately.
