

Story of Rose Collector's Set by King Star

This will be the most romantic work we have created so far: wedding, roses, love, fragrance, wedding dress, blessings, dyed edges, brooches... We have integrated all the romantic elements you can imagine into the work in the most appropriate way.

We released this fancy set for Magpie Festival. The pearly-lustre leather box contains a blue and a pink deck and comes with a rose brooch. We used rose scented ink for the first time, so it smells floral. The number of each blue deck is 1314/1314, representing "lifelong"; Each pair of pink decks is numbered 520/520, representing 'I love you'.
