## Money Maker by Bond Lee

Introducing Money Maker created by Bond Lee, Wenzi & MS Magic. Inspired by Ben Stone.

Now you can print money like magic!

The magician places a blank piece of paper on the base and presses the stamp pad over it. The paper magically changes into a real dollar bill.

And it's not over, he places the dollar bill back and inks it again; the bill now changes into a hundred-dollar bill!

You can do this magical transformation not once but two times.

There are many possibilities with Money Maker: prediction, mind reading, message reveal, and much more.

Visual, magical, practical, and easy to do, this is the Money Maker.
