Jigsaw Deck by David Regal is a truly one-of-a-kind way to start any card magic set.

You dump out a few wooden puzzle pieces from a box and start assembling them in front of the audience. Within just a few seconds, the pieces are brought together to form what looks like a playing card. The completed puzzle is then put inside a box, and after a quick snap of your fingers, the lid is removed to reveal that the puzzle has become a real deck of cards.

This truly is a **completely ordinary deck of cards**. You can immediately dump it out and give it to someone to shuffle or just jump right into your favorite card trick.

Jigsaw Deck is **incredibly easy to do**. It's basically self-working and all the props fit right into your pocket. Just add in your own normal deck of cards and you'll always be ready to perform.

Produced by Vanishing Inc. the custom-made puzzle pieces and special box are exceptional quality. The pieces themselves are adorned with an authentic Bicycle mandolin design and are incredibly simple to assemble. It will only take you a few minutes of practice to master the art of putting it together without much thought. Everything you need to know is covered in the complete tutorial that you'll receive alongside an optional "Brain Buster" sticker that can be used to decorate the box if you wish.
