

SHINE 3.0 by Bond Lee & MS Magic

SHINE 3.0

, the 3rd generation of our illuminating light bulb.

With this latest version, we designed the bulb to be transparent, making the bulb look more natural and elegant, while maintaining extreme brightness.

The light bulb can be completely examined by the audience.

SHINE 3.0 is remote controlled, making it very easy to use. You can apply SHINE 3.0 to your performances, stage effects, comedy, and much more.

The perfect utility tool for performance.
