

Sword Basket Pen Holder by Hocus Pocus

"Out of all the products we have recently designed, this one means the most to me. The Sword Basket is of course a classic, but was also my father, Paul Gross's favorite illusion. I've watched my dad perform this countless times and have helped him acquire probably every basket ever made (because one is not enough). This was made in tribute of my father and instead of the typical "HP" engraved on the bottom, we have engraved a "PG" in his honor."
