

Instant table

The magician walks, with a newspaper under his arm, towards the middle of the stage. Suddenly he produces from the newspaper a real table, complete with four legs. So, he uses it to place his magic tricks and start the performance.

- The table is made of stainless steel. The table top is covered with velvet.
- Closed it measures cm 34 (l) x 1,5 (h) x 22 (w) while open its height is about cm 76.
- Being very light, and with a small thickness, you can make it appear from a jacket, a newspaper, a production tool, etc.
