Hopping Chips by N2G

With superb technological craftsmanship, the first batch only has 20 sets available!

Hopping Chips will unlock a whole new realm of magic possibilities for all magicians! This magic prop innovatively upgrades the traditional "hopping coin" magic by replacing the coins with meticulously designed metal chips, offering an even richer and more authentic entertainment experience. Each chip is crafted from high-quality copper metal, boasting exceptional texture and a substantial weight, ensuring smooth and comfortable performance during shows.

Moreover, the surfaces of these chips have undergone precise baking and coloring processes, resulting in a glossy and vibrant appearance and a smooth touch, which perfectly meet the high standards of professional magicians. Whether it's a private gathering or a public performance, Leaping Chips will be an excellent magic tool to captivate the audience's attention. It not only enhances audience interaction but also elevates your magic performance and professionalism.

Experience **Hopping Chips** now and take your magic performances to the next level. Whether you are a novice or an experienced magician, this prop will amaze your audience and keep the applause coming!
