"...Perfect and impossible"

-Derren Brown

"...A bloody miracle"

-Teller

The Rising Card has always been one of the most captivating concepts in all of magic. It's visual, powerful, and direct magic that breaks all language barriers. Which is also why so many magicians have been eager to put their own twist on the plot. Yet none have been as truly innovative as Angelo Carbone's "**Notion of Motion**".

This groundbreaking creation is not just another card trick; but rather a magical experience that serves as the perfect testament to Angelo's imaginative genius. It's one of those routines that you'll enjoy even more once you know the ingenious method.

They name any card they want. Truly ANY card. You then make that card rise on your command.

- No forces
- No equivoque
- No magnets
- No threads
- No electronics

You can even show the cards on both sides, and the inside of the box, before and after the trick is over.

"**Notion of Motion**" truly feels impossible and completely fools both lay people and seasoned magicians alike. A select group of the world's best performers like Joshua Jay have been using it for years, and now you can too!

"The Hooker Card Rise requires a truck to transport. Angelo's Notion of Motion

travels in your shirt pocket. Congratulations on creating a true miracle."

-Mike Caveney

The biggest reason this gem has been kept largely secret is the fact that each one used to be tremendously time-consuming to construct. As such, they were only available in extremely small quantities and were prohibitively expensive, selling for \$100s at a time.

But, after working directly with Angelo, Vanishing Inc. uncovered a way to produce them at a larger scale without sacrificing an ounce of quality. Now, you can get the same exceptional "**Notion of Motion**", handcrafted to perfection using Angelo's precise specifications; but at a price that is more affordable than ever!

You'll receive the professional quality gimmicked deck constructed from premium red Bicycle Mandolin Cards and a comprehensive tutorial teaching you both the original handling and Joshua Jay's modified easier handling that he developed over 100s of performances.

"If I had to imagine the perfect rising card, it would look exactly like Carbone's creation."

-Asi Wind

"Brilliantly inexplicable until you learn the method. Inexplicably brilliant when you do."

-Guy Hollingworth

"A masterpiece of magical invention. The method is as brilliant as the effect."

-R. Paul Wilson
