

Frozen In Time by IARVEL MAGIC

Frozen in Time Hi-Tech V2 is the ultimate evolution of Katsuya Masuda's classic Frozen in Time effect.

This hi-tech version hides advanced technology in a timeless, examinable wooden box and photo frame. Manipulate the time on the device with your IARVEL app, your voice, IARVEL remote or even your IARVEL Pad. Every detail, from the invisible electronics to the slim photo frame, has been refined so you can present an absolute miracle that looks and feels completely hands-off. It's the modern classic reimagined for today's performer.

BASIC EFFECT

Hand the beautiful walnut box housing a photo in a frame to your spectator, let them examine the device thoroughly as you tell a story about the picture in the frame.

Ask them to put the cover back on the device and name an hour, and—without you ever touching the device again—they open the box to find the little watch, that is supposed to be frozen in time, inside the picture, showing the exact chosen time.

KEY FEATURES:

Multiple Control Methods: Use a traditional remote, control via smartphone, or voice commands, or even discreetly manipulate time using the IARVEL Pad. You're free to choose what suits your style.

Fully Examinable: Both the walnut box and the photo frame are designed for complete inspection. The photograph can be removed and shown freely, leaving no clues behind.

Hands-Off Performance: Once the spectator takes hold of the box, you never touch it again. They are the last to hold the device before the time changes so there is no room for suspicion.

Elegant Design: The frame matches the original version's thickness, allowing it to be viewed from any angle without suspicion.

Practical and Reliable: Operates on standard batteries, ensuring easy replacements and minimal downtime.

Includes Online Instructions: Get started quickly with clear guidance and expert tips for seamless performances.

Distance Advantage: You can control the device anywhere within a 50m range, so you don't even have to be close to the spectator for the effect to work.

WHAT YOU RECEIVE:

- 1x Frozen In Time
- 1x Remote Control
- 1x Charging Cable
