

## Give Out Deck (G.O.D.) by Adriano Zanetti

The **Give Out Deck** is a revolutionary version of one of the most powerful card mentalism effects with cards: the Tossed-Out Deck, but... with a COMPLETELY REGULAR DECK!

### Effect:

You approach a spectator, show them a few cards, and ask them to think of one.

Next, you wrap the deck with a rubber band and allow five more spectators to each look at and remember a card.

Then, each spectator stands up, and you are able to reveal every single card they are thinking of!

### What you get:

- A detailed booklet with step-by-step instructions and 17 clear illustrations to guide you through every move.
- Multiple performance videos, including one filmed in a real theater with genuine spectators, shot in a single take.
- A powerful handling where the cards can be shuffled by several spectators at the start of the routine.
- This unique approach allows you to continue performing magic with the same deck or even give it away as a souvenir.
- you'll also learn a powerful tool you can incorporate in all your card Magic.

### Highlights:

- Perform with a completely regular deck of cards.
- The cards can be shuffled at the beginning of the routine.
- Six stunning revelations in a single routine.
- Includes 17 illustrations for clarity.
- Includes Performance videos to help you master the effect.
