

The iDetic Peek by Mark Lemon

Discreetly obtain any thought written on a billet or business card, with **The iDETIC PEEK**. Your participant writes their secret, it's placed back in the wallet, and they take hold of the wallet. Your head is turned away the entire time, but you can peek that secret information whenever you want.

This innovative system utilizes a high-quality MagSafe wallet, seamlessly integrating with your iPhone. No more fumbling with sleights or wallets with secret flaps. The peek is easy and always within reach. No Android phones, requires iPhone with MagSafe feature.

The iDETIC PEEK offers unparalleled versatility:

- Quickly access the information on a single billet.
- Simultaneously view what has been written on multiple billets.
- Safely carry your billets and business cards in the included wallet.
- The slim design and magnetic attachment ensure a seamless experience.
- Attach it when you need it, detach it when you don't.
