

Glass Penetration by Tora Magic

A large sheet of glass is slid into an elegant wooden holder that is then covered by some panels. Mysteriously and without any possible explanation, the sheet is penetrated several times by a metal pin to which a ribbon is attached. At the end the sheet is pulled out and shown to be completely unharmed.

A truly impossible illusion.

- The product is hand made and is of great quality
- The item comes with: a wooden frame - a glass sheet - pin - ribbon and wooden boxing
