

OBAKE Quarter Set by Kreis and SEO Magic

"**OBAKE**" - It means "ghost" in Japanese. A quarter magically appears and disappears from the spectator's and magician's hand as if it's a ghost.

You prepare these gimmicked coins and then borrow some regular quarters from spectators. All set. You're ready to scare them!

A magnetic coin made from a real US quarter coin for all your performance needs.

Perform various tricks with amazing magnet coins.

Strong attracts each other through 26mm spacer - which means it's strong enough through the fingers or a deck case.

The Strongest Magnet Quarters In The World!
